## Streak Counter

We are Going to Build a Simple streak Counter. A streak Counter is a tracker for Good Habit. For

Example, if I Stop smoking today, I want to add that as an activity an in future, like next month I can see

how many days have gone without me smoking.

Below is a Guide to follow:

On Close Go Back to the First Frame

Adding a Streak by filling in a Name an image (URL) and a start date.

On Validation Display a Message on the DOM that disappears after 5 seconds

The message saying no Activities added yet on add should be Activities

On Adding Several Activities, The UI should look like this or Better

Add a Functionality to View a Streak by displaying a Pop Up

On Close, Close the Pop Up

Delete, Delete the Activity
